

## **Engineering and Design services**

If you've got a problem, we've got the solution.

N-K Manufacturing specializes in designing components that combine different types and durometer of plastics, as well as components that combine metal with plastic. These niche technologies provide:

- Lower cost
- Enhanced performance
- Easier assembly
- Reduced weight
- Extended service life

Our engineering department will handle your project with comprehensive program management solutions utilizing both local and off shore resources.
