

**N-K MANUFACTURING
TECHNOLOGIES INC.**

Unique applications for plastic molding

In-mold Decorating:

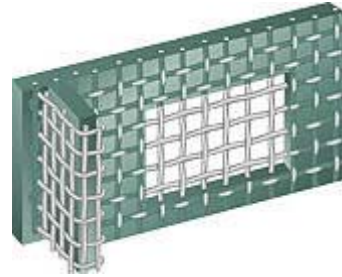

N-K has in-mold decorating capability that can help complete your finished product. We can offer various disciplines including, Nicholform compression molding, insert molding, as well as post mold decoration.

EMI / RFI Shielding:

N-K Manufacturing Technologies utilizes our molding experience to offer an insert molded EMI / RFI protection superior to other shielding options.

Lighter than metal and more uniform than paint or plating, allowing compartmentalization of many single components all in one basic plastic injection mold - **reduces parts and assembly costs.**
